### "Strike The Force"

Visit "[Strike The Force](#)" on MotoLyrics.com

The misery begins with torture  
Suppression, hate and ignorance  
What I need  
Fight for  
I want to  
Won't beg for

It's so disgusting, cheap and dirty  
Take your hands off of me  
Call me weak  
Call me pathetic  
Yes, I hate  
I am against

[Ref:]  
Strike the force  
Aggressive attack  
Attack the aggressor  
Strike the force

Witness of a dead rebellion  
Betrayal, loss, hypocrisy  
Piece of shit  
Shut up  
Keep clear  
I'll rip you up

I close my eyes and concentrate  
Let hatred be my trail  
Inhale  
Exhale  
1, 2, 3  
And let it out
