Too many kids are screwed up
No alternative, no hope
Too many kids act like dicks
They've got no reason
They've got no hope

Why do they do it
They've lost their minds
Society's victim
The system fucked up their mind
Not enough brains in their head
Before they learn
They're already dead

See the X's on my hand
It's not to be cool, it's who I am
You can put X's on your hand
When you're in control and in command

Why do they do it
They've lost their minds
Society's victim
The system fucked up their mind
Not enough brains in their head
Before they learn
They're already dead

Walk tall, walk straight
