City life can be comfortable
If you own yourself and your own delight
Comes from what you don't care about
And if we give or take a little bit
Keep a cool face
Earn some street cred
And novelty could be your best friend, yeah

But let's all go out
There's no time to waste, yeah
Cause I've got my favourite jeans
That you wanted to wear
And if life gets you down, just go out and taste it
And put on your favourite jeans
Now you can take 'em on
Hell, you can do anything...

And where I live, it's pretty cool
And uberchic and people are
So very very beautiful
And it's not too hard to look just right
If you rip it up or wear it tight
And attitude is gonna get you in the end, yeah

But let's all go out
There's no time to waste, yeah
Cause I've got my favourite jeans

That you wanted to wear
And if life gets you down, just go out and taste it
And put on your favourite jeans
Now you can take 'em on
Hell, you can do anything...

It's times like these, that make me think
Like who am I to know
How people change and what they feel
And what they've got to show for it
So come on up, cos I'd like to see
A little less cool and a more humility
Stick with what you want cos I like it like that
You know I like it like that yeah

But let's all go out
There's no time to waste, yeah
Cause I've got my favourite jeans
That you wanted to wear
And if life gets you down, just go out and taste it
And put on your favourite jeans
Now you can take 'em on
Hell, you can do anything...
