Now boys
Tell me your name
Cause it's ruined down here
and dirt roads covered in daisies
So I'm love with each other
And forty seconds is all it takes
Now I'm right here
And put it down here
Cos these are my last words

Town of sorrow
Town of sorrow
Town of sorrow
Town of sorrow

And you can do what you like
Cos its frozen down here
Shame(?) shame(?) (?)
Now your breath is under cover
I would suggest that touching is best
Cos its bruising down here
I know baby that you feel stretched
And these footsteps are yours

Town of sorrow
Town of sorrow
Town of sorrow
Town of sorrow

And I'm your lover
With a twisted mind
IÂ'll take you over
And make you mine

Town of sorrow
Town of sorrow
Town of sorrow
Town of sorrow
