She came to me with a lot on her mind
We could talk on the weather but not this time
Somethin' heavy was weighing on her heart
It was written on her face
So I quickly said a prayer
Cause' I didn't know what to say

Lord help me understand only you know what we need
Lord give me the words to say
I will follow you so take the lead

I was soberd by what she said when she walked
through the door
She thought she should end the life that she was not
ready for
We've been friends for so long now she can't hide
All the pain that she must feel inside
I said don't loose faith in God's love for you
And I pray his truth will see you through

Lord help me understand only you know what we need
Lord give me the words to say
I will follow you so take the lead
For without you, I'm running with eyes closed

{Bridge}
Without you (X3)
Running With eyes closed
Without you (X3)
Running With Eyes closed

It scares me to think of what we do
When we don't place our trust in you
When we see the one who's alive today
I just wanna give thanks and say

Lord help me understand only you know what we need
Lord give me the words to say
I will follow you so take the lead
For without you, I'm running with eyes closed
Running with eyes closed (X3)
