"Together In Dreams"

Visit "[Together In Dreams](#)" on MotoLyrics.com

Looking at the stars I wonder
Will we share our dream tonight
The million miles may stand between us
In dreams I'll be right by your side

Together in dreams if I can't see you
Together in dreams when I can't feel you
I'll be right there whenever trouble find you
You know in dreams I'm always by your side
Together in dreams I meant to hold you
Together in dreams I meant to show you
I've got the love, come on and let me guide you
Together in dreams, forever side by side

Looking at the stars I wonder...

The million miles may stand between us
But in dreams I'll be right by your side
I'll be right there, I'll be right there
Right by your side
