VERSE 1: I know what this means,
So this is when you run from me.
You've taken all my inspiration
And turned it into desperation
You took my everything
So now I'm comin' for you!

CHORUS: I wont back down
No not now
I've come to shake your world
I can't forget
The things you said
I've come to shake your world

VERSE 2: The shadows that you see
Wherever you may be
They'll remind you of me
The truth behind your eyes
Your darkest little lies
One more thing
I'm coming for you!

CHORUS: I wont back down
No not now
I've come to shake your world
I can't forget
The things you said
I've come to shake your world

BRIDGE

CHORUS x2: I wont back down
No not now
I've come to shake your world
I can't forget
The things you said
I've come to shake your world]

I can't FORGET x4
