Lie to all your friends
The trouble never ends
You're gonna take a fall
And I don't care at all
Stabbed me in the back
Someone I trusted
Let's get things straight
Don't tread on me
I thought things were cool
But I guess I was a fool
And now I know
All about you
Stabbed me in the back
Someone I trusted
Let's get things straight
Don't tread on me
You crossed me once,
Don't try it again
You didn't learn,
I'll show you again
What goes around,
Comes back around
Revenge, revenge is sweet
Don't tread on me! (x4)
