Quest-searching for the answers
Seek-the meaning of your life
Truth-in knowing life's perfection
Now-as infinite as time

Be free from your mind-and travel through time
See what you'll find-fly free
The essence of true living
Loving-life and all it's worth

Peace-and transcendental knowledge
Knowing-heaven 's here on earth
Sight beyond sight
Peace from inside
Beyond all time

Now you see the truth is just a little bit closer
Closer than you ever guessed
Now you feel the proof is just a little bit closer
With every single breath
You see the truth is just a little bit closer
Closer than you ever guessed
Now you feel the proof is just a little bit closer
With every single breath
