True necrofuck Satan occultic
The night has become to burn
Might inferno danse macabre
Scars of worshipping true evil bleed again

The night is here, the day is not
The night is hot because we burn every church in
Oulugia!

We bury the homosexual gaypriests in shit of Satan!

Die in snow, die in frost
Die in winter, die in Finland!

Satan!
Our dark lordmaster eternal
Kill all untrue satanists of Finland
We are the only true
We worship you
