The world is becoming a very black  
Prepare for our next attack  
When you come with your panzers  
We rise and shoot with panzerfausts  
Then you die!

Black forces of evil!  
Panzerfaust Division Blackthrone  
Infernal hordes of Satan!  
Panzerfaust Division Blackthrone

You can't live after we have killed you  
Because you are then very necro and dead  
Your panzer is to be broken after we've  
Risen with our panzerfausts

Dark evil Inferno men!  
Panzerfaust Division Blackthrone

Our defence-line is so thick  
With the power of evil we attack and kill  
You cannot do anything because we always have  
Our panzerfaust division Blackthrone ready

Dark evil Inferno men!  
Panzerfaust Division Blackthrone  
Hellish outlaws from Satan's side  
Panzerfaust Division Blackthrone

Panzerfaust Division Blackthrone  
Fistfucking the face of you  
666 times in a day  
Our defence-line is so thick  
With the power of evil we attack and kill  
Your tanks will be broken always
