(Words and music by Graham Nash)

If anyone wants to know
Where to find me
I'll be right here
In the warmth of your arms

'Cause you
You're the one I can trust in
You've never done me any harm

I'm putting all my troubles
Behind me
I don't feel the same
When I am away from your smile

'Cause you
You're the one that can calm me down
Whenever I get wild

Chorus (twice)
Fooling myself
About how to exist
All by myself
There was much I had missed
You came and showed me
What happiness is

If anyone wants to know
Where my heart is
Tell everyone
That's it's wrapped around yours

'Cause you
You're the one I can turn to
You opened up the door
