### "Burn Like The Sun"

This is personal  
Worse than I thought it was  
Worse than it could be  
Worse than a hole in me

You came with fire  
And left it in me  
Deep down it sits  
And the fuse is lit 'til now

Chorus:  
You can't help it  
You're alive just like anyone  
But you forget  
I burn just like the sun

This is beautiful  
More like a train wreck  
And all the passin' cars  
They wanna know who you are

I, suffer the season  
And you are well aware  
Of the reasons why

Repeat Chorus

(Instrumental)
