Greenish discoloration of the abdominal wall,
Odour of putrefaction is noticeable,
The eyeballs become soft,
Irregular green patches appear over of neck,
Chest and lower extremities,
A bloody, frothy purge may pour from the mouth,
The abdomen is distended with gas,
The corneas have collapsed,
The discoloration is becoming red,
Due to the pressure of the decomposed blood,
Body surface is mottled,
Red, green, brown the eyes bulge,
And the tongue swells to fill the mouth,
And protrudes beyond the teeth.
