Fallen from the blood red sky
bloodstained hands
expressionless eyes
brothers asleep lay their hands on us
rebellion for purification
to erase the fire...hells lust
schizophrenic acting to fulfill
never thought nightmares
the knights of the apocalypse
ride through the valley of independence

conquering our promise land
to destroy the hands of freedom
the two edged waraxe
battled from red demons
with furious revenge
executes antagonism
(of mother earth)
we saw. we felt. we (still) suffer
we died within terror
