"Rock The Rain Down"

I. The April sky is black
with moody clouds of gray
I've got to pick up my guitar
because it's high to play
I know this storm is gonna help me
ROCK my blues away!

II. See, my lady said, "good-bye."
and my heart wears a frown
I don't want to let you people know
I feel like a clown.
gotta turn my amplifier UP!!
It's time to ROCK this PAIN DOWN!!

(Chorus) "I say, Letz Rock the rain Down!
Letz rock the rain down!
I said , Rock the Rain Down
ROCK IT DOWWW-OWWN!" (Repeat)

III. Why does Love always have to hurt
And cause us all such pain!
My heart continues to be broken
Time & time, and Time again!
I know that the SKY Is cryin with me
When it pours down the Rain.
