You must believe the fairy tales I tell you
Love your princess, find your way
To your castle if you do,
My fairy tales will help you through.

You must believe the fairy tales I tell you
Fight your dragon, find your way
To your castle yes it's true,
My fairy tales will always help you to.

One, one, one, one, one, one,
Two, two, here is something new for you.
Give it up and live it up,
The rhytem here is turning up.
Can it be your mistery, your fantasy
I tell, tell, you must believe in this fairy tale.

One, one, one, one, one, one,
Two, two, here is something,
here is something, here is something new for you.
Three, three, three, three, three, three,
Four, four, I'm back with the hardcore,
I'm back with the hardcore.

You must believe the fairy tales I tell you
Love your princess, find your way
To your castle if you do,
My fairy tales will help you through.

You must believe the fairy tales I tell you
Fight your dragon, find your way
To your castle yes it's true,
My fairy tales will always help you to.
