Shining light
Another day turns into moon
Eternal fire
Waited all my life

Take me away
Million miles away from here
Take me away
Find a place for you and me (me [?x])

Taking me higher

Shining light
Another day turns into moon
Eternal fire
Waited all my life

Take me away
Million miles away from here
Take me away
Find a place for you and me (me [?x])

Taking me higher [2x]

Shining light
Eternal fire
Taking me higher [2x]

Find a place for you and me (me [?x])

Taking me higher
