God may be an astronaut

Oz is over the rainbow

Fairytales are only make believe

Tell me where do the monsters play

They've only got a million miles to go

The final frontier brings a brand new foe

Galactic race has the space for you

The special sauce in the human stew

EARS, ARMS, & EYES

HANDS, FEET, & THIGHS

Oz is owned by astronauts

Fairytales are full of rainbows

God may be only make believe

Tell me where do the monsters prey
