Even from a thousand miles away  
I hear the sounds  
Feelin' like the cold September rain  
I'm feelin' down  
Need something to keep from goin' insane  
From losing ground

Wish I could runaway 'til all this has gone away  
Wake on a better day  
I'm feeling like an old guitar that's been thrown away  
Sleep all the wrong away every night  
'Til the worst is over

Well I know that somewhere there's a change  
That's meant for me  
And I'm getting tired of the saying  
It's meant to be  
Telling me I just got to believe  
And you will see

Wish I could runaway 'til all this has gone away  
Wake on a better day  
I'm feeling like an old guitar that's been thrown away  
Sleep all the wrong away every night  
'Til the worst is over

You ever feel that you want vacation  
Ever feel that you wanna go  
Do you feel like you've lost your patience  
'Cause where you're headed no one knows

Wish I could runaway 'til all this has gone away  
Wake on a better day  
I'm feeling like an old guitar that's been thrown away  
Sleep all the wrong away every night  
'Til the worst is over

Repeat chorus
