Behind the stars, behind the moon  
I need the time to be alone  
To find a place thats far from you  
Now I know what I must do

Can somebody tell, (is this heaven or hell?)  
We felt sense of tears pouring down  
And so long, farewell, (is this heaven or hell?)  
Im here but I still dont know why

I have a heart, I have a soul  
But I behaved just like a fool  
You breathe the air, youre everywhere  
This is goodbye and I dont care  
To find a place thats far from you  
Now I know what I must do

Can somebody tell, (is this heaven or hell?)  
We felt sense of tears pouring down  
I find and I am, (is this heaven or hell?)  
Please help me, I dont wanna die

Into darkness, where Im forced to stay  
And to motion, try my best to find a way  
To balance my life from the edge of the danger again

Can somebody tell, (is this heaven or hell?)  
We felt sense of tears pouring down  
And so long, farewell, (is this heaven or hell?)  
Please help me, I dont wanna die

Can somebody tell, (is this heaven or hell?)  
We felt sense of tears pouring down  
I find and I am, (is this heaven or hell?)  
Im here but I still dont know why
