

Crucifix "Search For The Sun"

Visit "[Search For The Sun](#)" on MotoLyrics.com

Here we stand with a passion for life
A world without hate, no violence no strife
See all there is to see
Hear all there
Is to hear
Know all there is to know
Feel all there is to feel
A world without war where we can be free
Our future, our
Earth begins with you and me
A search for life in this dirty world
A cry of pain and anguish for love
[chorus]
The twisted
And tortured yearning for love
Searching for the sun in this fuckin dirty world
No powers to control us, stand for freedom

No wars to kill us, work for peace
[chorus]
No more hats to divide us, stop your fighting
More love to join us , more love
To join us
