

Crucifix "Three Miles To Oblivion"

Visit "[Three Miles To Oblivion](#)" on MotoLyrics.com

There is no environmental protection
Our earth is fucked from exploitation
From strip mining to offshore drilling
And
Industry vreated pollution
Three miles to oblivion
Three miles to death
Three miles to extinction
The clear dangers of
Nuclear power
Are so imminent they can't be ignored
Adn we know no way to dispose of it
The chances for disaster are
Greater
[chorus]
We're not gonna wait for the meltdown
Nor will we just stand still
I ask you how much is too much
When we
Have the leakes and spills
[chorus]
Thanks to **Auntie War**
