I heard your song being played on the radio
About a girl you knew from long ago
You said you loved her and you miss her so
You can't let go, you can't let go

I heard another song on the radio
About a girl he knew from long ago
He said he loved her and he missed her so
He can't let go, he can't let go

Can't they think of any other song to sing
When I hear the words they speak it's all the same
I guess these dinosaurs are roaming the earth again
I need a change, I need a change

I heard another song on the radio
It sounded like a song I heard 10 years ago
The only difference is this time they played it
A little slow, a little slow, a little slow

Can't they think of any other song to sing
When I hear the words they speak it's all the same
I guess these dinosaurs are roaming the earth again
I need a change, I need a change

Can't you think of any other song to sing
Aren't you tired of singing that same song again
I guess these dinosaurs are roaming the earth again
We need a change, We need a change, We need a
change

I heard your song being played on the radio
