I cant balance the world Im going to drop it on you And  
like me, youll run from it too I never believed the  
world could turn on me But thats just how the world  
turns Rotations of hurt Steady rotations of hurt Once in  
the palm of my hand Now just on my back Crushing me  
to  
the ground until theres nothing left I never believed  
the world could turn on me But thats just how the world  
turns Rotations of hurt Steady rotations of hurt Once in  
the palm of my hand Now just on my back Crushing me  
to  
the ground until theres nothing left I cant balance the  
world
