Streets filled with joy  
Children come out to play  
Worries far gone  
The world seems to have fun today  
All colours bright and gay  
Are whirling around  
Cheerful music plays  
Hypnotising sounds

Oh, on with the show  
On your darkest day  
Oh, these clowns you enjoy  
Your children, I rape

We're harlequins of deceit  
Hiding behind our paint  
Midgets and freaks  
Enticing your kids away  
This glorious pageantry  
Threatens your town  
Chanting gallantly  
We are tradesmen of the young

Hysterical countrymen  
Protect their progeny  
Fools drawing swords  
Like flowers with useless thorns  
Families torn apart  
By our side-show of fear  
Our very bitter carnival  
Will challenge who's near
