I can feel you comin' up on my heels...
Can you feel the thunder behind my wheels?
Just you try to take me...
Just you try and take me!
I will dust you back right where you came.

One way, my way.
Your way, don't even try!

Feel my fever burning you up inside...
Taste my passion, floor you passin' by!
Eat my bitter-sweet dust,
hear my roaring fuel thrust!
Ain't no way you ever gettin' by!

One way, my way.
Your way, don't even try!

All in all, you'r time is a-runnin' out.
You will just leave here without!
Runnin' down on the final pace,
Run you out into last place!
Fuel me, I can't live without!

One way, my way.
Your way, don't even try!

All in all, you'r time is a-runnin' out.
You will just leave here without!
Runnin' down on the final pace,
Run you out into last place!
Fuel me, I can't live without!
