Catch a train anywhere. I need to take a real vacation  
I'll take a plane, I don't care. I'm suffering from this  
alienation  
There's always someplace better to be, and  
somewhere else to go  
But you can't take me, 'cause I really don't want to  
Chorus: Have you ever really looked outside? You  
really don't want to  
You try to keep me locked inside. But I really don't want  
to  
If you could float away from here, what would be your  
destination?

Let's touch the sky, and feel the air. I'm waiting for an  
indication.  
There's always someplace better to be, and  
somewhere else to go  
But you can't take me, 'Cause I really don't want to  
Chorus:X 2  
Bridge:  
If you listen to me whine. I don't want to hear you cry.  
There's always someplace better to be, and  
somewhere else to go  
But you can't take me, 'Cause I really don't want to  
Chorus:X2
