"Reason To Jump"

Ladies and gentlemen
Listen to my voice now
We're gonna rock the hall
Till it's breaking down
So wave your hands up and down
Shake your bodies all around
And let's give the praise to the lord above

Praise the lord praise the lord
God's in the house that's a reason to jump

Shout it once cry it twice
There's a message to send
To all the people all around this planet
We bring the rock to roll
So let's raise our voice up
And let's give the praise to the lord above

Praise the lord...

Every boy every girl get up and shout it out now
Praise the lord praise the lord
God's in the house so shout it out once more now
Praise the lord praise the lord

Praise the lord...
