Well I've been wondering 'bout who I am
And just how far I'd drive to see the end
I started from, when I believe I've won

And as the sweat rolls down my face
I put my heart into this place of mine
Go back in time, to see what I'm living in...

My will (my will), my way (my way)
My fear (my fear) fades away
With wings (with wings) I fly high
Watch me fly...

It's just my wild heart moving in
It's just my will to live the win you know
I need it so
Life's when the race begins

And all the years I've wondered why
I've stared at speed with open eyes you see
It lives in me
Now that's what sets me free

My will (my will), my way (my way)
My fear (my fear) fades away
With wings (with wings) I fly high
Watch me fly...

I keep this fire, burning inside me
The thrill of desire
Coming over, over me...

Now I believe whether near or far
The road is windy there where you are
Try to take the curve, next turn another learned

And so I finally see my way
Straight and true pass yesterday my friend
I've waited for, the thrill, the chase forever more

Watch me fly...
