i can't resist nor refuse the thrill of lust you bring me  
the contradictions taking me down  
down to the darker side of me

the insecurity is my fear  
to loose a part of me  
a pray of courage reaching my mind  
forgive me for my sins

get down on your knees when i command  
lay back and take waht's yours to have  
i know exactly what to do  
to reach a higher level of you

the feeling of loosing control  
to do what you desire  
trembling from the shame you bring  
you wanna make me beg for more

touch me, fill me do what you please  
you're in control of me  
the only things i hate to love  
my god of pleasure  
get down on your knees when i command  
lay back and take waht's yours to have  
i know exactly what to do  
to reach a higher level of you

a higher level of you

get down...

get down on your knees when i command  
lay back and take waht's yours to have  
i know exactly what to do  
to reach a higher level of you  
A higher level of you...
