My name's insanity and i'm here to turn nightmare into reality

I like this world cause everything is so easy to do

I am your best friend as i'm your biggest enemy

You can't see me but you can feel me much more

I catch your soul i'm in your brain i just want you to go

insane

Destruction is my success and the reason why i'm here

Can you feel me coming into you do you like the

coldness in your soul

No concience no fear no matter what you feel

I'm inside you i control you

I'm your god so what i say is

Hey, just believe what i say

Just believe what is wrong and my fire gets along

Hey, just believe what i say

I'm inside your brain and want you to go insane

Don't ask where i'm coming from don't use your brain  
just let it go

I won't tell you how to stop my life i just want to survive

I'll do my very best to grap you out of your small nice  
world

Don't kill me your to stupid i'm the winner in this game

Hey, just..

Let my fire get along

Believe what is wrong

Just believe what i say

Hey, just..
