I heard the call of souls, I felt the flavor of the pardon  
I touched the element substance sacred moment of  
reflection

The angel cries on the inside floods the compassion  
chest

Bleeding the truth bleeding in the deep of the heart

The eyes only contemplate tears of solitude

In the mouth I repudiate moan in the solemn soul  
desolation

Eight Christ in the land, the only one man consecrated

The Christ of the most sincere lie, that in the alone  
cross finished

In the womb profaned for words, the cold, seed  
germinates

The angels load the remaining portion, the in the  
sacred stream bed finishes

Nephiun was born the bastard, that de clutter initiates

Nephiun was born the bastard, that the discord  
propagated

The eyes only contemplate tears of solitude

In the mouth I repudiate moan in the solemn soul  
desolation

Eight Christ of the most sincere lie, that in the alone  
cross finished

Call of souls...

I felt the presence of the void, I felt the flavor of the  
darkness

I moved myself as an angel flying, falls as a worm in  
the soil

Magic asleep for fairies, I woke up prisoner in the  
rottenness

An angel who falls down of the sky, a man raise  
conspiracy

Master of the cold suffering, lord of the arden heart

He hears my moan now, to the little one time a time

He transforms the force of the darkness in most  
brilliant of the lights

For the cursed divine consecration

Oh! Sad angel of broken wing

He flies on the forest of the desperation in search of  
lost wisdom

This is the call of the souls...  
Call of the souls...

I heard the call of souls, I felt the flavor of the pardon  
I touched the element substance sacred moment of  
reflection

The angel cries on the inside floods the compassion  
chest

Bleeding the truth bleeding in the deep of the heart  
In the womb profaned for words, the cold seed  
germinates

The angels load the remaining portion that in the  
sacred stream bed finishes

Nephiun was born the bastard, that de clutter initiates
