Final hour is here I don't fear the reaper  
Fighting against the legions of hate  
It's time to choose where you belong  
Death comes quicker than, than you know

It's an illusion of what is fact of fiction  
It's an illusion of why we have to die

We are the mercenaries of metal  
We take no prisoners, kill or be killed  
We are the mercenaries of metal  
We take no prisoners make a stand

Why am I here where will I go  
Enemies die so fast by your sword  
The quickening is here I live again  
I will never die a holy man

It's an illusion of what is fact of fiction  
It's an illusion of why we have to die

We are the mercenaries of metal  
We take no prisoners, kill or be killed  
We are the mercenaries of metal  
We take no prisoners make a stand
