Legendary and fairytale
Appeared Mesopotamia to the
greek
so he advanced with his
army

Into the unknown
The disciple of the great
Aristoteles
Reached the end of the
would
Conquest and exploratory
urge
After eight years ? the
destination
My lord...! He gained all
Asia

He wanted to proclaim the hellenic

empire
The Greek united his army

Babylon should be the
capital
But it was never
realized
He died by disease and left
this world

The Macedonian ordered his
nation
To discover and conquest

To march along into the
distance
They devoted themselves to their
fate
And marched along into the
distance
