"Hey Bessie it's Christmas here"  
Here! Here! Hurray for Christmas

Christmas comes but once a year, and to me it brings  
good cheer,  
And to everyone who likes wine and beer  
Happy New Year is after that, happy I'll be, that is a fact  
That is why I like to hear, folks I say that Christmas is  
here

Christmas bells will ring real soon, even in the  
afternoon  
There'll be no chimes shall ring at the Christmas Ball  
Everyone must watch their step, or they will loose their  
rep  
Everybody full of fare at the Christmas Ball

Grab your partner one an' all, keep on dancing 'round  
the hall  
Then there's no one to fall, don't you dare to strut  
If your partner don't act fair, don't worry there's some  
more over there  
Seekin' a chance everywhere at the Christmas Ball
