When you leave me
The bed is empty
And I feel crazy
Cos I didn't say anything

I wish you would tell me
How you really feel
But you'll never tell me
Cos that's not our deal

When you leave me
You take away everything
You take all my money
You take all my weed

I wish you would tell me
How you really feel
But you'll never tell me
Cos that's not our deal

I wish you would tell me
How you really feel
But you'll never tell me
Cos that's not our deal

That's your deal
That's not my deal (x7)
