I'm needing, I'm wanting
There is something about you
I need to know more of
When I fall on my knees
It's in my prayer, Oh God
Take me beyond the veil
Give me more of You

Oh, Lord... and if it's not too much to ask
I wanna deeper relationship with you
I want the oil of God to flow in me
Through and through
Here I am
On bended knees
With outstretched arms crying Lord
Not my will, but Your will
Less of me, and more of You
I need more, I need more

As I go before your throne
I give the praise to You alone
I lift my hands and give you worship
For you are God alone
Let your glory fill this place
Show your hand of mercy
I can't speak right until you come Lord
Let your presence fall on me

Here I am
Accept my words
Accept my praise
I'm broken, I'm thirsty
Let your blood flow through my veins

I gotta have more, I gotta have more
