I came across a  
Dusty photograph  
I hope the 80's don't come back  
My hair was so high  
Yours was parted on the side  
I laughed until I cried

Reminiscing - us in the  
Movies kissing  
In our favorite Jordache jeans  
Oh I remember crying through  
The Way We Were  
Never knowing I'd be her

So I went back to how I used to feel  
When big mistakes we made  
Seemed like no big deal  
Where everyday was better than the day before  
But we don't live there anymore

I opened up our  
Box of 45's  
Oh what memories they revive  
Penny Love - never made me cry  
But it's sure killing me tonight
