

Crystal Gayle & Gary Morris "What If We Fall In Love"

Visit "[What If We Fall In Love](#)" on MotoLyrics.com

You laid your feelings on the line
I never stood a chance
We found the perfect love this time
Why let little doubt
Urn us inside out

What if we fall in love?
What if we can't get out?
What if we're in too deep?
Guess, we both got doubts
What if it doesn't last?
What if the road gets rough?
Only fools ask, 'What if we fall in love?'

Life never gives us guarantees
Love doesn't always last
Why worry 'bout our destiny
I'm with you tonight
Let's not question why

What if we fall in love?
What if we can't get out?
What if we're in too deep?
Guess, we both got doubts
What if it doesn't last?
What if the road gets rough?
Only fools ask, 'What if we fall in love?'

If you ever find yourself confused
If you ever even think of me
Just remember how much I love you
Love is never worry-free

What if we fall in love?
What if we can't get out?
What if we're in too deep?
Guess, we both got doubts
What if it doesn't last?
What if the road gets rough?
Only fools ask, 'What if we fall in love?'
