Oh baby baby
It's another rainy day,
Do the skies know every time my heart's filled with
grey...
Lazy clouds cover the daystar, daystar,
Seems like a long day is starting again...

Oh baby baby,
Little blue bird in the case... is my only friend and
comfort,
But even he cannot fly...
So much I feel,
So much that I wanna give, wanna give,
But the story may, may not be what I dreamed of...

Oo-oo-hoo
Baby baby, Baby baby, Baby baby,
All I can do is just to love you,
From so far away,
On this rainy, rainy day...

Oh you are the saviour, I know it in my heart,
But I can't show it, I can't show it, and words never
follow...
How can I open to you...
Wanna reach out, reach out,
Can't find a way to let go, wish I were stronger...

(Baby, I want the courage to tell you, but I can't, I just
can't...
Would I ever hold you... would I ever...)

Oo-oo-hoo
Baby baby, Baby baby, Baby baby,
All I can do is just to love you,
From so far away,
On this rainy, rainy day...

Oo-oo-hoo
Baby baby, Baby baby, Baby baby...
