How did the cat get so fat?

A fork in the middle of my road
Causin me to make a choice beyond my comfort zone.
Which path will I choose?
Which way will I go?
My mind is overloading and ready to explode.

Sit and contemplate
About every single path that I'm about to take.
How it controls my fate.
Will I pass for me?
I wanna take the path that's gonna set me free.

A fork in the middle of my road
Causin me to make a choice beyond my comfort zone.
Which path will i choose?
Which way will i go?
My mind is overloading and ready to explode.

Sit and contemplate
About every single path that I'm about to take.
How it controls my fate.
Will I pass for me?
I wanna take the path that's gonna set me free.

Sit and contemplate
About every single path that I'm about to take.
How it controls my fate.
Will I pass for me?
I wanna take the path that's gonna set me free.

Sit and contemplate
About every single path that I'm about to take.
How it controls my fate.
Will I pass for me?
I wanna take the path that's gonna set me free.
