I spent five years in faded  
Cut off blue jeans  
Had dreams of living  
Like a gypsy  
Made a few friends  
Fell head over  
For a delinquent yeah.

I guess a lot of things  
Go down and up in smoke  
I stayed up town been dead broke  
Made a living paid my dues and rent  
And started again.

When it's all said and done I want to say  
I had a good ride some good times  
And love someone.  
I might seem like I'm running  
But I'm solid as a rock  
Inside define evolution.

Wild child I was seventeen  
Born again when I  
Heard Patsey sing  
Just a little piece of a  
Good thing my evolution  
My evolution

Heart broken by a green eyed jerk  
Temporary glitch but it still works  
Just another day in the life of my evolution.  
My evolution.  
Goes on and on and on

I never could hold down your  
Average nine to five  
Wouldn't pour the decaf c  
Ouldn't stand the politics  
I'd do it all again money don't  
Make me who I am. who I am

I wasn't blessed with

Much self discipline  
Get out of line and  
I tend to step in  
I'm no high maintince  
I'd give you the shirt  
Off my back  
I'd never hold back

When it's all said and done  
I wanna say it was a good  
Go a good try I loved someone  
Never found any gold at the  
End of any rainbow  
But searching was so much fun.

Wild child I was twentythree born again  
When I heard Aretha sing  
Just a little piece of a good thing  
My evolution  
My evolution

Heart stolen by a blue eyed punk  
Respect is still  
One of my favorite songs  
Just another day in the life of my evolution.

We all get stuck  
Tough love baby gotta  
Keep on moving  
Keep on moving  
Don't criticize analyze my my  
My evolution yeah yeah

Wild child guess I'll always be  
Now I'm thankful for the folks  
Who wanna hear me sing  
Just hanging onto a good thing  
My evolution my evolution

My heart's ready for another run  
Somewhere out there is the right one  
Just another day in the  
Life of my evolution  
My evolution

Goes on and on and on  
Yeah my evolution  
Goes on and on and on  
Evolution  
Oh my evolution  
Yeah yeah

Yeah my evolution  
Evolution  
My evolution yeah yeah
