Isolate essence ecstatically  
Assess malevolent capacity  
Perfect an inverted perfidy  
Affect an atavism bring out the worst in me  
Friends seem afraid  
Neighbors just curse at me  
Hurling aspersions  
At my church of perversity

Finding faces in a blackness  
Fathom form in the abyss  
This vision's chaos of color  
Is a collision of bane and bliss  
Finding faces in a blackness  
Fathom form in the abyss  
This vision's chaos of color  
Is a collision of bane and bliss

That's not the real sun  
I'm not the real one  
It's not the real sun  
I'm not the real one  
That's not the real sun  
I'm not the real one  
It's not the real sun  
I'm not the real one
