You can join us anytime, we're here  
We are proud, to no men we'll never kneel  
We don't care what they say, and what they'll do  
Always real and honest, we are the truth, we are the truth!

Power! Burn inside!  
As one - together!  
Till' the end - fight!

We are metal nation  
We worship the truth  
Metal nation!

Together we stand  
Millions side by side  
For hell we bent

We are metal nation  
Burning like fire  
Metal nation!

We don't care who you are, which gods you pray  
No lies between us, we do what we say  
The worshippers of death and souls of black  
True maniacs of speed, won't see our back  
Won't see our back!
