[I.]

Old bell tolls the midnight
Vampire goes for a hunt
He'll get you in a backstreet
When you will go tonight
Dark mist around Your town
Smell of death in the air
You can feel his cold breath
Night stalker straight from hell!

Wild & fast like a snake
He'll come from nowhere
You will feel his breath on your neck, yeah!
Your soul, under night's care...

[Ref.]

Night prowler - soul's hunter
Vampire nightmare from our dreams,
You will feel fangs on your neck
Night prowler - soul's hunter
Forgotten beast from our dreams,
Your soul is under night's care

[II.]

Fear will turn you in the stone
Your body will be paralyzed
There's no time to escape
He's gonna kill you tonight!
You will be dying in pain
Eyes of the beast see you now
Bleeding bodies around
The end is so close - run!

Wild & fast like a snake
He'll come from nowhere
You will feel his breath on your neck, yeah!
Your soul, under night's care...
