I knew we had to leave as soon as the sun rose  
Ersatz city seethes beneath the heavens in repose  
We need to flee this town to keep ourselves intact  
Now if we could only get our bodies to react

It's the sin king, sinking  
Sin king, sinking

I can feel the floods in this opulent sodom  
Where all your millions of kings will just sink to the  
bottom  
I can feel the floods in this opulent sodom  
Where all your millions of kings will just sink to the  
bottom

Sin king, sinking  
It's the sin king, sinking

I knew we had to leave as soon as the sun froze  
Ersatz cities freeze beneath the heavens in repose  
We need to seize the crown to keep ourselves intact  
Now if we could only get our minds to react

Sin king, sinking  
It's the sin king, sinking  
It's the sin king, sinking  
Sin king, sinking
