## "Hundred Days"

Visit "[Hundred Days](#)" on MotoLyrics.com

It's the end we've lost it all  
There's no chance for us to break these walls  
On this battleground we fall  
Plancenot lost our foes are standing tall

We will never get out of this war alive - no surrender  
They will never get out of this war alive

No more soldiers left to fall  
Bravest men followed the nation's call  
What I did I did for France  
I have failed there is no second chance

I will never make it to the new world's shores - I  
surrender  
Captain lay me in chains I will flee no more

Send him off to the shores of the island afar  
For those who have died  
100 days of his tyranny come to an end  
There's nowhere to hide

Rise up, we have beaten the French  
A time of peace has just begun  
Gone to the end of the world  
Seems we've reached the end of it... all
