Look up

To the sunnyside

I hear your voice
In sleep last night
To fall asleep at morning light

I dreamt a few, woke up in peace
I missed your face and you were pleased

Summerbreezee that's what I need
Lookup to the sunnyside that shines so bright
Summerbreeze
That's what I need
Lookup to the sunnyside that shines so bright

Summerbreeze that's what I need
Lookup to the sunnyside that shines so bright
Summerbreeze that's what I need
Lookup to the sunnyside that shines so bright

A burning fever in my heart
So won't you try a second start

Being lonely feels so bad
Exploding emotions in my head

Summerbreeze that's what I need
Lookup to the sunnyside that shines so bright
Summerbreeze that's what I need
Lookup to the sunnyside that shines so bright
Summerbreeze that's what I need
Lookup to the sunnyside that shines so bright
