In your bed, I live my life
I count sheep, black and white
It's okay, it's alright
Just to be with you

I wanna go, never stop
I wear the bottoms but you're the tops
Pillow fights, pillow talk
You be Doris, I'll be Rock

(Chorus)
All night I stay awake
Just to watch you sleeping
(I watch you sleep...)
And when the morning comes,
I'm the one who's dreaming

In your hands I put my heart

Knew it was you right from the start
And if ever we're apart
I know that it won't be for long

In your bed, the days go by
Wish they would stand still but they fly
Count to ten and close your eyes
So I can kiss you one more time

Rpt Chorus

I'm dreaming
(dreaming...)
I'm dreaming
(dreaming...)
I'm dreaming
(dreaming...)
I'm dreaming
